

RECENT ADVANCES IN MOLECULAR IMAGING AND THERAPY

Bolzano 23 maggio 2008

09:00 Registrazione dei partecipanti e consegna materiale congressuale

09:30 Apertura dei lavori

09:40 Presentazione convegno e ospiti (Luzian Osele, Bolzano)

Session I: Advances in PET-CT Imaging

Chairman GP. Bonatti, L. Osele

10:00 "PET-CT Imaging in South Tirol: first experiences" (Mohsen Farsad, Norma Decaminada, Bolzano)

10:30 "Clinical utility of contrast enhanced PET-CT imaging" (Franca Chierichetti, Castelfranco Veneto)

11:00 "Value of Non-FDG PET-CT imaging" (Stefano Fanti, Bologna)

Coffee Break

Session II: Advances in Management of Neuroendocrine Tumors

Chairman C.Crivellaro, C. Wiedermann

11:45 "Value of different Somatostatin analogues for Imaging and therapy (Decristoforo, Innsbruck)

12:15 "Therapy and Imaging of neuroendocrine tumors "(Irene Virgolini, Innsbruck)

Lunch

Session III: Advances in Cancer Therapy

Chairman S. Cortelazzo, C. Graiff

14:00 "Multitargeted therapy: new developments in solid tumours" (Rebecca Pedersini, Bolzano)

14:20 "Clinical applications of gene therapy in solid tumours (Emanuela Vattei, Bolzano)

14.40 "Therapy with monoclonal antibodies in haematological tumours"(Atto Billio, Bolzano)

15:00 "Efficacy evaluation of novel cancer treatments with PET-CT imaging"(Thomas Hany, Zurigo)

15:30 "Recent advances in Radiation Therapy"(Vanoni Valentina, Trento)

16.00 "Functional Imaging guided RT planning"(Markus Haller, Bozen)

16.30 Discussione

17:00 Conclusione dei lavori
